

Trip Information

- The three most common purposes for bicycle trips were Exercise (46%), Recreation (32%), and Personal Errands (11%).
- Resident starting points were concentrated in or near Duck (53%), Southern Shores (24%), Kitty Hawk (12%), Nags Head and Roanoke Island (both 6%), as might be expected due to the proximity to the survey locations.
- Destinations for Residents included Duck (56%), Nags Head and Corolla (both 17%), Southern Shores and Kill Devil Hills (both 6%).
- Rides averaged 18.2 one-way miles for residents, and ranged from 1.5 to 45 miles.

Bicycle Facilities Investments

- Ninety-one percent of residents indicated additional facilities should be built in the area.
- One hundred percent of residents favored the use of state and/or federal funds to build facilities.
- The top five priorities residents gave for improving bicycle facilities were, in order of priority: More Bike Paths, Wider Shoulders, Wider Paths, More Paved Shoulders, and Bike Route Signs/Maps.

Facility Investment Locations

Residents were asked about where bicycle facilities improvements should be located. NC 12 seems to be the preferred improvement location with the Duck, Kitty Hawk, Corolla, and Southern Shores areas all mentioned more than once. Other individual suggestions included U.S. 158, Collington Road, Nags Head to Oregon Inlet, and every two to three miles for signs, benches, and water fountains.
